

## Federal Maritime Commission

## § 520.9

freighted at the lower TRI if the weight or measurement declared for rating purposes is increased to the minimum level.

(e) *Green salted hides.* The shipping weight for green salted hides shall be either a scale weight or a scale weight minus a deduction, which amount and method of computation are specified in the commodity description. The shipper must furnish the carrier a weight certificate or dock receipt from an inland common carrier for each shipment at or before the time the shipment is tendered for ocean transportation.

(f) *Conference situations.* (1) New members of a conference shall cancel any independent tariffs applicable to the trades served by the conference, within ninety (90) days of membership in the conference. Individual conference members may publish their own separate open rate tariffs. Admission to the conference may be effective on the date notice is published in the conference tariff.

(2) New conference agreements have ninety (90) days within which to publish a new tariff.

(g) *Overcharge claims.* (1) No tariff may limit the filing of overcharge claims with a common carrier to a period of less than three (3) years from the accrual of the cause of action.

(2) The acceptance of any overcharge claim may not be conditioned upon the payment of a fee or charge.

(3) No tariff may require that overcharge claims based on alleged errors in weight, measurement or description of cargo be filed before the cargo has left the custody of the common carrier.

(h) *Returned cargo.* When a carrier or conference offers the return shipment of refused, damaged or rejected shipments, or exhibits at trade fairs, shows or expositions, to port of origin at the TRI assessed on the original movement, and such TRI is lower than the prevailing TRI:

(1) The return shipment must occur within one (1) year;

(2) The return movement must be made over the line of the same common carrier performing the original movement, except in the use of a conference tariff, where return may be made by any member line when the

original shipment was carried under the conference tariff; and

(3) A copy of the original bill of lading showing the rate assessed must be presented to the return common carrier.

[64 FR 11225, Mar. 8, 1999, as amended at 67 FR 39860, June 11, 2002]

### § 520.8 Effective dates.

(a) *General.* (1) No new or initial rate, charge, or change in an existing rate, that results in an increased cost to a shipper may become effective earlier than thirty (30) calendar days after publication.

(2) An amendment which deletes a specific commodity and applicable rate from a tariff, thereby resulting in a higher "cargo n.o.s." or similar general cargo rate, is a rate increase requiring a 30-day notice period.

(3) Rates for the transportation of cargo for the U.S. Department of Defense may be effective upon publication.

(4) Changes in rates, charges, rules, regulations or other tariff provisions resulting in a decrease in cost to a shipper may become effective upon publication.

(b) *Amendments.* The following amendments may take effect upon publication:

(1) Those resulting in no change in cost to a shipper;

(2) The canceling of a tariff due to cessation of all service by the carrier between the ports or points covered by the tariff;

(3) The addition of a port or point to a previously existing origin or destination grouping; or

(4) Changes in charges for terminal services, canal tolls, additional charges, or other provisions not under the control of the common carriers or conferences, which merely acts as a collection agent for such charges and the agency making such changes does so without notifying the tariff owner.

(c) *Controlled carriers.* Published rates by or for controlled carriers shall be governed by the procedures set forth in part 565 of this chapter.

### § 520.9 Access to tariffs.

(a) *Methods to access.* Carriers and conferences shall provide access to

## § 520.10

## 46 CFR Ch. IV (10–1–08 Edition)

their published tariffs, via a personal computer (“PC”), by:

(1) Dial-up connection via public switched telephone networks (“PSTN”); or

(2) The Internet (Web) by:

(i) Web browser; or

(ii) Telnet session.

(b) *Dial-up connection via PSTN.* (1) This connection option requires that tariffs provide:

(i) A minimum of a 14.4Kbps modem capable of receiving incoming calls;

(ii) Smart terminal capability for VT-100 terminal or terminal emulation access; and

(iii) Telephone line quality for data transmission.

(2) The modem may be included in a collection (bank) of modems as long as all modems in the bank meet the minimum speed.

(c) *Internet connection.* (1) This connection option requires that systems provide:

(i) A universal resource locator (“URL”) Internet address (e.g., <http://www.tariffsrus.com> or <http://1.2.3.4>); and/or

(ii) A URL Internet address (e.g., <telnet://tariffsrus> or <telnet://1.2.3.4>), for Telnet session access over the Internet.

(2) Carriers or conferences shall ensure that their Internet service providers provide static Internet addresses.

(d) *Commission access.* Commission telecommunications access to systems must include connectivity via a dial-up connection over PSTNs or a connection over the Internet. Connectivity will be provided at the expense of the publishers. Any recurring connection fees, hardware rental fees, usage fees or any other charges associated with the availability of the system are the responsibility of the publisher. The Commission shall only be responsible for the long-haul charges for PSTN calls to a tariff initiated by the FMC.

(e) *Limitations.* (1) Tariffs must be made available to any person without time, quantity, or other limitations.

(2) Carriers are not required to provide remote terminals for access under this section.

(3) Carriers and conferences may assess a reasonable fee for access to their

tariff publication systems and such fees shall not be discriminatory.

(4) Tariff publication systems shall provide user instructions for access to tariff information.

(f) *Federal agencies.* Carriers and conferences may not assess any access charges against the Commission or any other Federal agency.

(g) *User identifications.* Carriers and conferences shall provide the Commission with the documentation it requires and the number of user identifications and passwords it requests to facilitate the Commission’s access to their systems, if they require such identifications and passwords.

### § 520.10 Integrity of tariffs.

(a) *Historical data.* Carriers and conferences shall maintain the data that appeared in their tariff publication systems for a period of five (5) years from the date such information is superseded, canceled or withdrawn, and shall provide on-line access to such data for two (2) years. After two (2) years, such data may be retained on-line or in other electronic form, and shall be made available to any person or the Commission upon request in a reasonable period of time. Carriers and conferences may charge a reasonable fee for the provision of historical data, not to exceed the fees for obtaining such data on-line. No fee shall apply to federal agencies.

(b) *Access date capability.* Each tariff shall provide the capability for a retriever to enter an access date, i.e., a specific date for the retrieval of tariff data, so that only data in effect on that date would be directly retrievable. This capability would also align any rate adjustments and assessorial charges that were effective on the access date for rate calculations and designation of applicable surcharges. The access date shall also apply to the alignment of tariff objects for any governing tariffs.

(c) *Periodic review.* The Commission will periodically review published tariff systems and will prohibit the use of any system that fails to meet the requirements of this part.

(d) *Access to systems.* Carriers and conferences shall provide the Commission reasonable access to their automated
